programme

FOSTERING ENTREPRENEURSHIP AND INNOVATION ECOSYSTEM

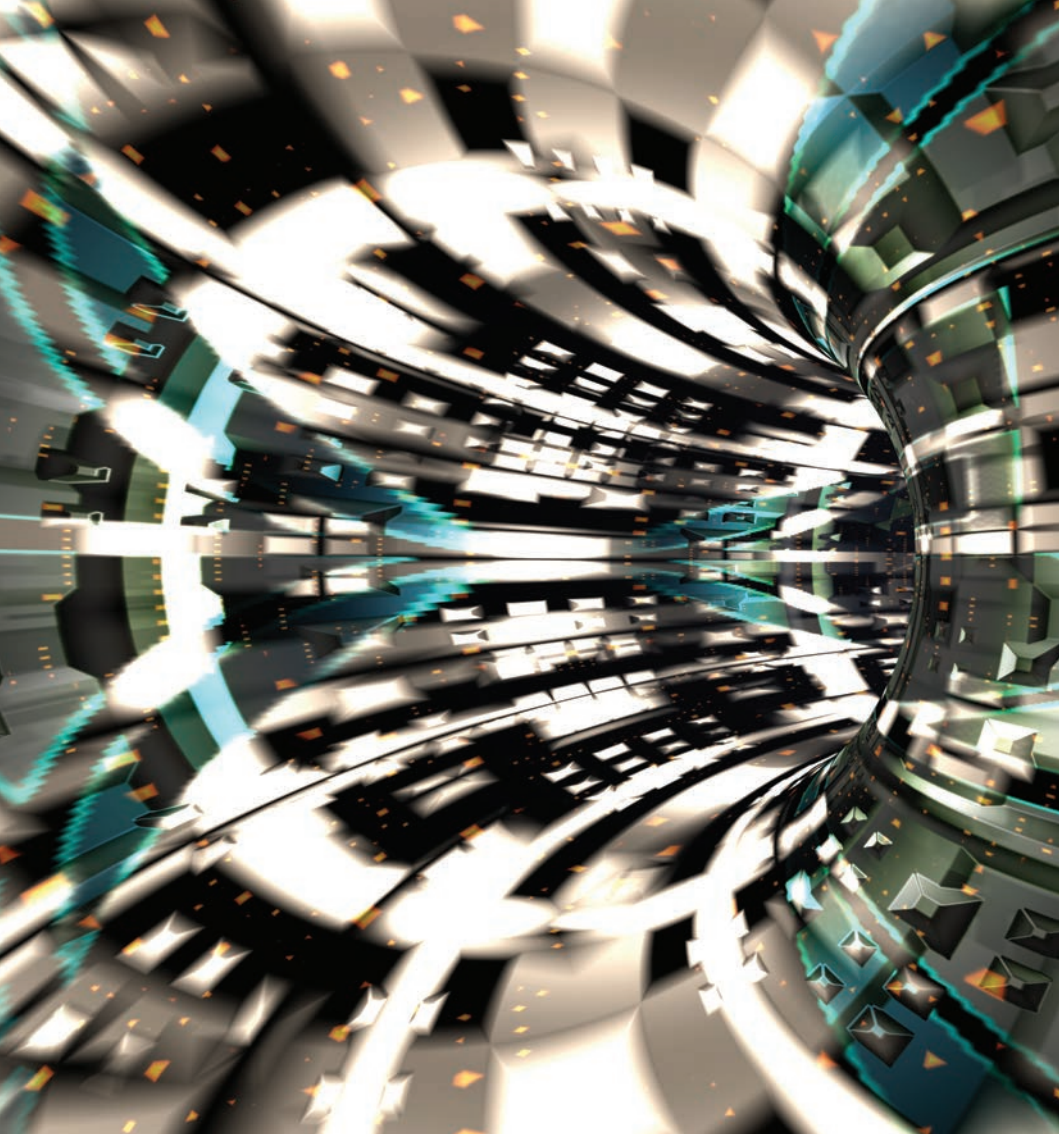

Aalto University
Center for
Entrepreneurship

LITHUANIAN UNIVERSITY
OF HEALTH SCIENCES

It is our honour to invite you to join the Conference „**Fostering Entrepreneurship and Innovations Ecosystem**“ which will be held in Kaunas on **November 29-30, 2012** at the historical Aula of Kaunas University of Technology (A. Mickevičiaus St. 37). The Conference is organised in the partnership with Lithuanian University of Health Science, Lithuanian Energy Institute as well as Aalto University with the special contribution from the Cambridge University Centre for Entrepreneurial Learning.

The aim of the Conference is to set a scene for higher education institutions as well as all other interested parts to discuss over how we could foster Entrepreneurship and Innovation Ecosystem and reinforce higher education, business as well as other actors of the ecosystem productive cooperation.

The Keynote speakers will help to portrait state of art of the development of the Entrepreneurship and Innovation Ecosystem from the international perspective and all participants will be invited to contribute to discussing over five major issues: The role of the State in fostering entrepreneurship and innovation ecosystem; Insights into high technology export – how to enter foreign markets; Challenges for Intellectual property management; How to scale up technology transfer and How to boost high-tech start-ups. Case study of the Innovation and Entrepreneurship Centre will provide insights into the first steps to inoculate entrepreneurship spirit within the higher education institutions.
